\*Please note that the 2005-2006 tuition charts are a projection only. As in the past we will try to keep to this projection so that you can budget for your child/children's education.

**Note:** We have tried to keep tuition increases to a minimum in the past and will continue to try to do so in the future. The chart above reflects next year's tuition along with a projection for 2005-2006. *Health Care benefits have increased greatly in recent years. We expect more of the same in the near future and therefore may be forced to review the 2005-2006 tuition rates.*
